Mexico

Dear **Dr. Lagunes**:

May I inform you that **Grisell Alejandra Olivio Román**, a PhD student in Educational Systems and Environments at your Faculty of Pedagogy of Universidad Veracruzana, carried out a research stay at the **Luminous-Lint** organization under my supervision.

The stay covered **120 hours** of face-to-face and distance work, distributed formally between June 20 and August 21, as well as subsequent communications to achieve the research stay objectives. During her stay, we worked on a visual literacy test as well as having daily exchange of ideas and experiences on photography, subjects related to her research project "Effect of post-photography in the development of media and informational competences of university students".

Yours sincerely,

**Alan Griffiths**
